Featuring three signature holes, five sets of staggered tee boxes, four lakes and deep shifts in elevation that ensure golfers of every skill level will have a memorable and exciting game.

Effective 2025, our award-winning Mountain and Arroyo courses are open exclusively for club members.

Expert instruction is available including one-on-one lessons with a pro player and access to the exclusive RoboGolfPro® revolutionary swing training tool.

THE COURSES

MOUNTAIN

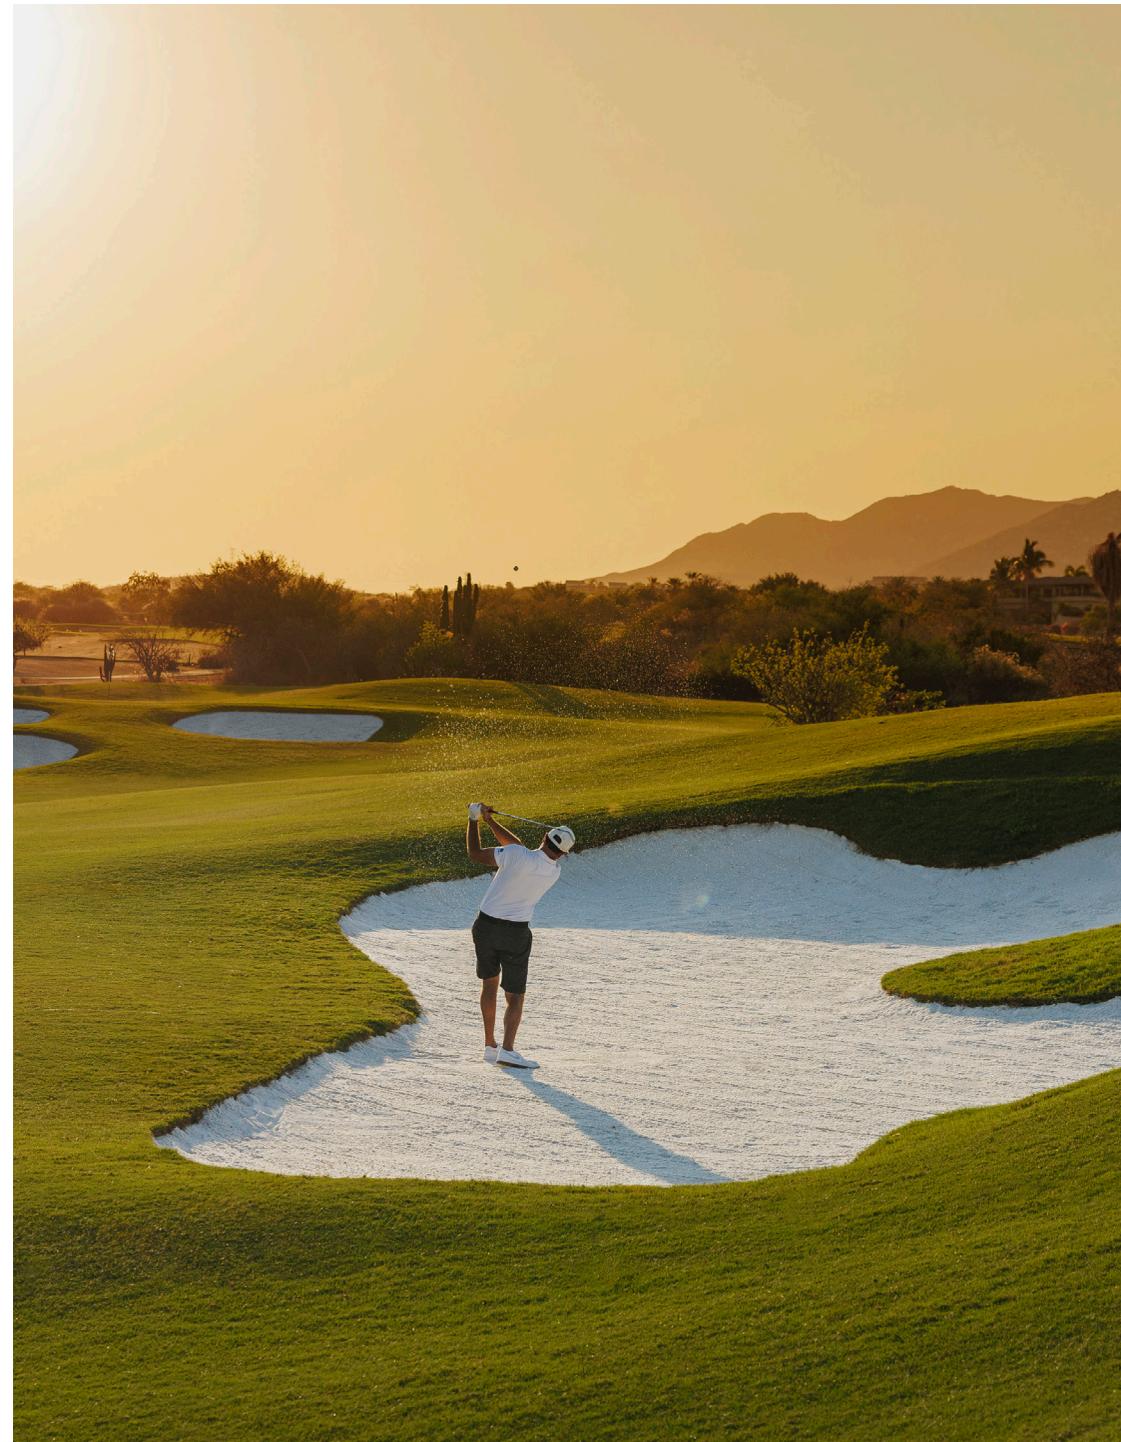

This endlessly interesting nine-hole course extends 3,602 yards. The third hole—"one of the greatest par fours of the world"—leads you 470 yards uphill to an ample driving area.

ARROYO

This nine-hole course stretches a memorable 3,337 yards. Holes 6, 7, and 8—called “three of the best holes in all of Los Cabos Golf”—offer formidable doglegs, lengthy forced carries and sweeping views of the Sea of Cortez.

OCEAN

The course stretches 3,527 yards from the championship tees, all against a breathtaking backdrop of the Sea of Cortez. The course starts with a 600-foot elevation change from holes one to six. Hole nine challenges you with directional shifts that profit from desert and mountain terrain.
